Services

Brand Relationships

Social Promotion | Starting at \$5

Posts made to Facebook, Twitter, Instagram, Pinterest, and more. Price depends on the platform, number of posts, custom images, and the type of content. Custom rates available.

Product Reviews | *Minimum of \$75 worth of product must be sent for review*

A product review includes a blog post written about your product or service. I write an overview section which details the name of the product, what category it's in, the price, and the web address where my readers can purchase it. If there are coupons or promo codes provided to me, I'll include it in the overview section. I then provide a full detailed write up of the product, including images. At the bottom of my review, I use a 5-star rating system based on my personal experience with the product. I write honest reviews, so if there is anything negative coming out of my review, I will contact you first. See my Product Review Guidelines for more details.

Giveaways | *\$25 if no product review, free if included with a product review*

A giveaway is a great way to drive create a lot of interest and excitement about your product. If you are sending me a product to review and giveaway, I only charge for the product review. If you'd like me to host only the giveaway, my rate is \$25.00.

Sponsored Posts | *\$50 per post if I write it, \$25 per post if it is pre-written*

A sponsored post is a blog post promoting your product, service, or brand. I focus on writing posts that build trust and authenticity with my readers.
